4th May 2026

ISOMO ACADEMY

Kigali, Rwanda.

Dear ISOMO,

I am applying to be an ISOMO Intern in digital arts being photograph and videograph through visual story telling. I have spent about four years in visual storytelling. I am so passionate about digital arts, but besides that I am more inspired by the ISOMO principles being Curious, Kind and Engage that I am looking forward to embracing, through the internship.

In the four years that I have spent in this field of digital arts, I have acquired skills that are basic and more others that help me in my storytelling. I have participated in various events which are, Kigali Breaking Festival 2025, Ubumuntu Art Festival 2025, ASYV Graduation Ceremony 2025, FLL Competition 2025 & 2026, and many important events at ASYV.

My skills in digital arts can be shared to other young people like me, through collaboration, team work, time management and other many crucial skills. Which may leave a good legacy to the world, the legacy is none rather than the memories that we may create through skills taught.

I have attached my resume and my recommendation letter to the portfolio. Thank you so much, I am looking forward to receiving your great response.

Sincerely,

GASANA INEZA Shukuru Gabriel.
